

STATISTICS UPDATE: MERCHANDISE TRADE

JUNE 2014 HIGHLIGHTS

Figure 1: Terms of trade June 2014 and June 2013 (Million Vatu)

Vanuatu's trade deficit (the excess of imports over exports) in June 2014 stood at vatu 1,208 million compared to June 2013 from vatu 2,112 million, registering a decrease of 43% or vatu 903 million. This improvement was attributable to a 25% or vatu 585 million decreases in total imports. Total imports decreased from vatu 2,337 million in June 2013 to vatu 1,752 million in June 2014.

Domestic exports earnings (excluding re-exports) for June 2014 increased significantly by vatu 319 million over June 2013 from vatu 225 million to vatu 544 million. The increase was attributable to increases in coconut oil, beef and cocoa exports in June 2014.

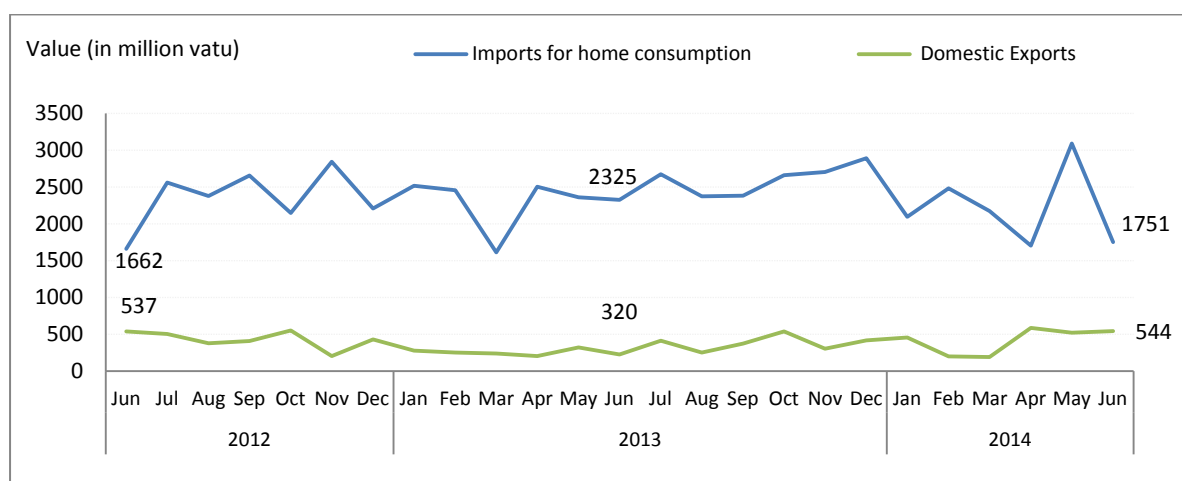

Figure 2: Overseas trade exports and imports for home consumption (million vatu)

EXPORTS

In June 2014, for the main export commodities, beef constituted the largest share in value at 25% followed by cocoa 19%, copra 15%, coconut oil 12%, kava and other products 11% each, coconut meal and live fish 1% each, while the rest of the export group made up less than 1% each. Other products comprised of medicaments, scrap metals, personal effects and bean tree seeds. (See attached Table 2, Table 3)

Figure 3: Exports of Coconut Products (million vatu)

In June 2014 coconut products exports increased as follows: copra exports, vatu 83 million, coconut meal, vatu 11 million compared to no shipments over June 2013. Coconut oil exports stood at vatu 65 million in June 2014 showing an increase of 38 million vatu compared to vatu 47 million in June 2013.

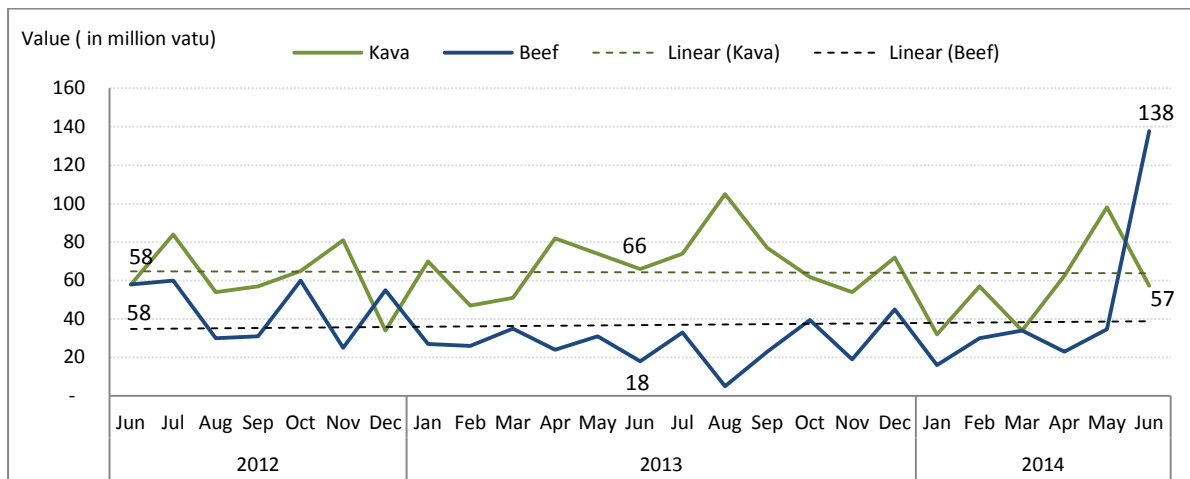

Figure 4: Exports of Kava and Beef Products (million vatu)

Beef exports stood at vatu 138 million in June 2014 compared to vatu 18 million in June 2013, a significant increase of vatu 119 million. However kava exports decreased by 13% from vatu 66 million in June 2013 to vatu 57 million in June 2014. The bulk of beef exports were to Japan, Papua New Guinea and the Solomon Islands, while most of the kava exports were destined mainly to New Caledonia and Fiji.

IMPORTS

In terms of imports by commodity groups, machines and transport equipment registered the largest share in value (C.I.F) at vatu 527 million or 30% of the total imports for home consumption, followed by food and live animals at 25 % or vatu 447 million, basic manufactured goods 14%, miscellaneous goods 12%, chemical products 9% and other products such as, beverages and tobacco, crude materials, goods not classified elsewhere and oils and fats made up less than 5% each of the total imports for home consumption in June 2014 compared to the same period in 2013.

The commodity group which increased the most in June 2014 were imports of machines and transport equipment representing 16% or vatu 74 million increase over June 2013, followed by food and live animals at 4% or vatu 19 million and oils and fats, 19% or vatu one million over June 2013 respectively. Meanwhile the rest of the commodity group decreased; were mineral fuels (-92%), goods not classified elsewhere (-60%), crude materials (-54%), beverages and tobacco (-39%), chemical products (-21%), basic manufactured goods (-11%), and miscellaneous goods (-5%) each, respectively.

The distribution of imported goods by country grouping was stable over the same period of June 2013. Australia, New Zealand, Fiji and Singapore were the main countries of origin of imports in June 2014.

REVISIONS TO IMPORTS AND EXPORTS STATISTICS

The Vanuatu National Statistics Office receives import and export statistics data on quantity and value from the Department of Customs and Inland Revenue's ASYCUDA merchandise trade processing system. On occasion revisions are made to import and export entries after publication. The Vanuatu National Statistics Office makes every possible effort to check the data and resolve inconsistencies and anomalies with colleagues from the Department of Customs and Inland Revenue prior to publishing. Where revisions are necessary these are highlighted in the statistical tables.

CONCEPTS AND DEFINITIONS

- **Imports for Home Consumption** are goods, materials or articles purchased in other countries and brought into Vanuatu and cleared through customs procedures for home consumption. Imports for home consumption are valued on a C.I.F. (cost, insurance, freight) basis. This means that for each commodity, the value recorded includes the factory price, the cost of packaging, the freight cost from overseas to Vanuatu ports and the insurance.
- **Exports** are expressed in F.O.B. (free on board) prices. It means the total value includes the production cost and the transport cost to the Vanuatu port of export.
- **Imports for re-export** refers to imports destined to be re-exported without having undergone any transformation, or only minor ones. This is especially the case of duty free goods and fuel "imported" into the country and sold to non-resident airline operators or ships.
- **Re-exports** are goods, materials or articles exported in the same condition as they were imported, and imported goods, which have undergone operations such as repair, repacking, or bottling which leave them essentially unchanged before exporting.
