

STATISTICS UPDATE: OVERSEAS TRADE

DECEMBER 2012 HIGHLIGHTS

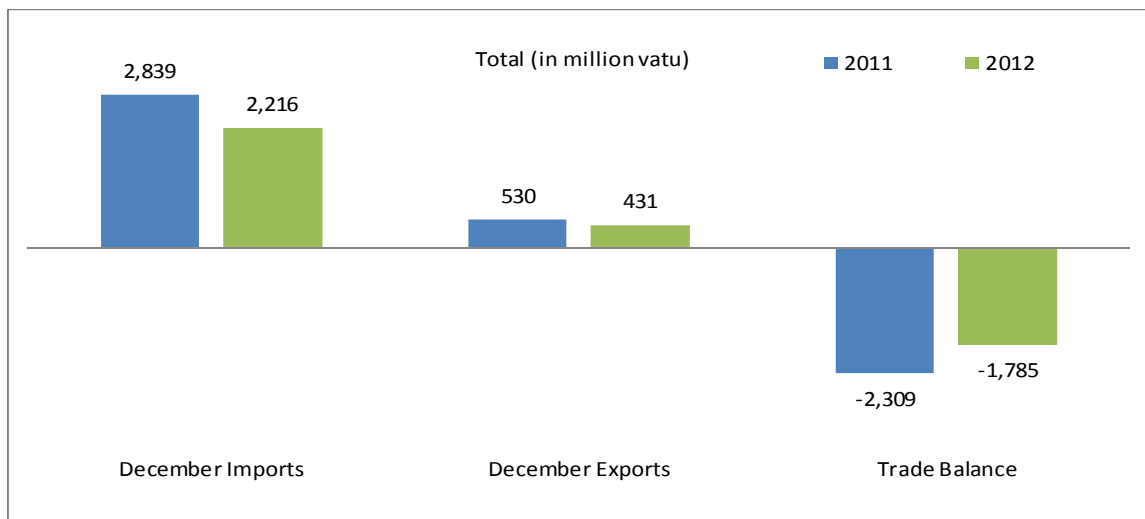

Figure 1: Terms of trade December 2012 and December 2011 (in million vatu)

Vanuatu's trade deficit (the excess of imports over exports) in December 2012 decreased by 23% or vatu 524 million over December 2011 from vatu 2,309 to 1,785 million. Total imports decreased by 22% from vatu 2,839 million in December 2011 to vatu 2,216 million. This improvement was partially due to 21% or vatu 602 million decrease in imports for home consumption from vatu 2,811 million to vatu 2,209 million over December 2011.

In December 2012, the value of domestic exports decreased by 19% from vatu 530 million in December 2011 to vatu 430 million. The main cause of this decrease was attributable to the decreased value of copra and kava exports. However, there was an increase in export value from vatu 206 million over the previous month.

Figure 2: Overseas trade exports and imports (in million vatu)

EXPORTS

In December 2012, for the main export commodities, coconut oil registered the largest share in value at 37% followed by beef 13%, cocoa and kava 8% respectively, copra 7%, coconut meal 2% and other products 18%, while the rest of the export group make up less than 1% each. Other products were comprised of sandal wood, waste and scrap metals, lemon citrus fruits and personal effects. (See attached Table 2, Table 3)

Figure 3: Exports of Coconut Products (in million vatu)

Copra exports earnings for December 2012 decreased by 81% from vatu 168 to vatu 31 million over November 2011. The decrease was due to the fall in domestic copra price. Coconut oil exports slightly increased by 52% over December 2011 from vatu 104 million to 158 million.

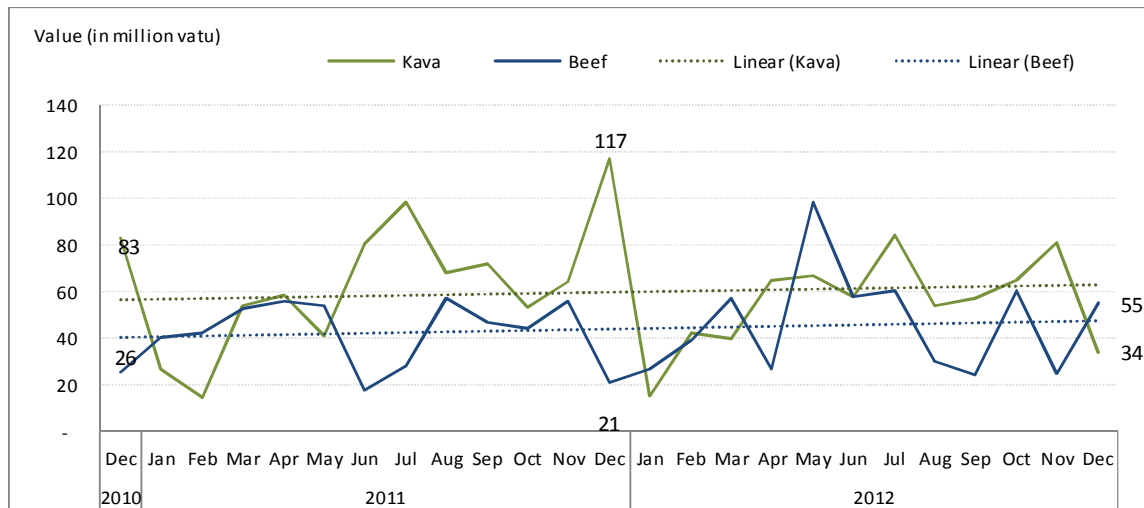

Figure 4: Exports of Kava and Beef Products (in million vatu)

Kava exports decreased in value from vatu 117 million to 34 million over December 2011. However beef exports registered an increase of vatu 34 million from vatu 21 million to 55 million over December 2012.

In December 2012, cocoa exports showed some improvement by recording a 66% rise in value terms from vatu 20 million in December 2011 to vatu 33 million.

IMPORTS

In terms of imports by commodity groups, food and live animals, registered the largest value (C.I.F) of vatu 602 million or 27% of the total imports for home consumption, followed by machines and transport, 22% with value of vatu 487 million, chemical products 15%, basic manufactured goods 14%, miscellaneous manufactured goods 12%, beverages and tobacco 6%, crude materials 2%, mineral fuels and goods not classified elsewhere 1% respectively, and other products such as, oils and fats made up less than 1% of the total imports for home consumption.

Compared to December 2011, the import groups that increased in value were: chemical products representing 38%, followed by crude materials 26%, beverages and tobacco 17%, goods not classified elsewhere 15%, and machines and transport 4%. However the rest of the other commodity groups decreased in value, mineral fuels (-97%), oils and fats (-46%), miscellaneous manufactured goods (-15%), basic manufactured goods (-13%) and food and live animals (-8%) in December 2012.

REVISIONS TO IMPORTS AND EXPORTS STATISTICS

The Vanuatu National Statistics Office receives import and export statistics data on quantity and value from the Department of Customs and Inland Revenue's ASYCUDA merchandise trade processing system. On occasion revisions are made to import and export entries after publication. The Vanuatu National Statistics Office makes every possible effort to check the data and resolve inconsistencies and anomalies with colleagues from the Department of Customs and Inland Revenue prior to publishing. Where revisions are necessary these are highlighted in the statistical tables.

CONCEPTS AND DEFINITIONS

- **Imports for Home Consumption** are goods, materials or articles purchased in other countries and brought into Vanuatu and cleared through customs procedures for home consumption. Imports for home consumption are valued on a C.I.F. (cost, insurance, freight) basis. This means that for each commodity, the value recorded includes the factory price, the cost of packaging, the freight cost from overseas to Vanuatu ports and the insurance.
- **Exports** are expressed in F.O.B. (free on board) prices. It means the total value includes the production cost and the transport cost to the Vanuatu port of export.
- **Imports for re-export** refers to imports destined to be re-exported without having undergone any transformation, or only minor ones. This is especially the case of duty free goods and fuel "imported" into the country and sold to non-resident airline operators or ships.
- **Re-exports** are goods, materials or articles exported in the same condition as they were imported, and imported goods, which have undergone operations such as repair, repacking, or bottling which leave them essentially unchanged before exporting.
