

## STATISTICS UPDATE: OVERSEAS TRADE

### FEBRUARY 2014 HIGHLIGHTS

Figure 1: Terms of trade February 2014 and February 2013 (Million Vatu)

Vanuatu's trade deficit (the excess of imports over exports) in February 2014 stood at vatu 2,286 million, showing a deterioration of vatu 76 million over February 2013 from vatu 2,210 million. Total imports increased by 1% or 24 million from vatu 2,461 million in February 2013 to vatu 2,485 million in February 2014. The decrease in the trade balance was mainly due to increased imports for home consumption, by 1% or vatu 23 million from vatu 2,457 million to vatu 2,480 million over February 2013.

Domestic exports earnings (excluding re-exports) for February 2014 decreased by 21% or vatu 52 million over February 2013 from vatu 251 million to vatu 199 million. The decrease was because there were no copra exports, and decreases in sawn timber, coconut meal and fish exports in February 2014

Figure 2: Overseas trade exports and imports for home consumption (million vatu)

## EXPORTS

In February 2014, for the main export commodities, Kava constituted the largest share in value at 29% followed by coconut oil 17%, beef 15% shell 9%, live fish 5%, and other products 20%, while the rest of the export group made up less than 5% each. Other products comprised of pharmaceuticals, Azure Pure Water, citrus fruits (tahitian limes), tamanu oil and scrap metals. (See attached Table 2, Table 3)

Figure 3: Exports of Coconut Products (million vatu)

Coconut products exports in value over February 2013 showed decreases for coconut oil and coconut meal by 32% and 76% in February 2014. Meanwhile there was no copra exports over the same period of the previous year.

Figure 4: Exports of Kava and Beef Products (million vatu)

Earnings from Kava exports increased from 47 million vatu in February 2013 to 57 million vatu in February 2014, indicating an increase of 21% or 10 million vatu. Beef export earnings also increased by 15% or 4 million vatu in February 2014 compared to 26 million vatu in February 2013. The bulk of kava exports this month were mainly to Fiji, Kiribati, New Caledonia, USA and Guam, while most of the beef were destined for Solomon Islands, Japan and New Zealand.

## IMPORTS

In terms of imports by commodity groups, mineral fuels registered the largest value (C.I.F) at vatu 750 million or 30% of the total imports for home consumption, followed by machines and transport 24% or vatu 587 million, food and live animals 13%, basic manufactured goods 12%, chemical products 8%, miscellaneous goods 7%, and other products such as, beverages and tobacco, crude materials, goods not classified elsewhere and oils and fats made up less than 5% each of the total imports for home consumption over the month of February 2014.

In February 2014, imports of machines and transport equipment increased by 79% or 259 million vatu in value over February 2013, followed by beverages and tobacco 31%, chemical products 11%, miscellaneous manufactured goods and oils and fats 4% respectively. Meanwhile the rest of the commodity group that decreased were: Goods not classified elsewhere (-72%), crude materials (-33%), food and live animals (-31%), basic manufactured goods (-14%) and mineral fuels (-4%) respectively.

The distribution of goods by country grouping was stable over the same period in February 2013. Singapore, Australia, New Zealand and Fiji were the main countries of imports in February 2014; however exhibited a few changes in position for Fiji with in February 2014. Imports from Australia and Singapore remained stable while Fiji decreased by (-22%) in imports for home consumption over February 2013.

## REVISIONS TO IMPORTS AND EXPORTS STATISTICS

The Vanuatu National Statistics Office receives import and export statistics data on quantity and value from the Department of Customs and Inland Revenue's ASYCUDA merchandise trade processing system. On occasion revisions are made to import and export entries after publication. The Vanuatu National Statistics Office makes every possible effort to check the data and resolve inconsistencies and anomalies with colleagues from the Department of Customs and Inland Revenue prior to publishing. Where revisions are necessary these are highlighted in the statistical tables.

## CONCEPTS AND DEFINITIONS

- **Imports for Home Consumption** are goods, materials or articles purchased in other countries and brought into Vanuatu and cleared through customs procedures for home consumption. Imports for home consumption are valued on a C.I.F. (cost, insurance, freight) basis. This means that for each commodity, the value recorded includes the factory price, the cost of packaging, the freight cost from overseas to Vanuatu ports and the insurance.
- **Exports** are expressed in F.O.B. (free on board) prices. It means the total value includes the production cost and the transport cost to the Vanuatu port of export.
- **Imports for re-export** refers to imports destined to be re-exported without having undergone any transformation, or only minor ones. This is especially the case of duty free goods and fuel "imported" into the country and sold to non-resident airline operators or ships.
- **Re-exports** are goods, materials or articles exported in the same condition as they were imported, and imported goods, which have undergone operations such as repair, repacking, or bottling which leave them essentially unchanged before exporting.
